

SHUBHAM KHOLAM

Pune, India | +91 7020939720 | shubhamkholam@gmail.com | linkedin.com/in/shubham-kholam-333889159

PROFESSIONAL SUMMARY

Results-driven **Flutter Developer with 6+ years of experience** designing, developing, and deploying scalable cross-platform mobile applications for Android, iOS, and web. Proven track record of delivering 50+ production-grade applications across healthcare, fintech, e-commerce, sports, logistics, and enterprise domains. Deep expertise in Flutter/Dart, Firebase, REST APIs, state management architectures (Bloc, Provider, GetX, Riverpod), and CI/CD pipelines. Adept at performance optimization, real-time communication systems, and leading end-to-end app development from UI/UX to Play Store and App Store deployment.

TECHNICAL SKILLS

Languages & Frameworks	Dart, Flutter (SDK)
State Management	Bloc, Provider, GetX, Riverpod
Backend & Database	Firebase (Auth, Firestore, Cloud Functions, FCM), REST APIs / JSON, SQLite, Hive, SharedPreferences, MySQL
Architecture Patterns	Clean Architecture, MVVM, MVC
DevOps & Tools	GitHub, GitLab, CI/CD, Fastlane, GitHub Actions, Android Studio, VS Code, Android SDK
Specializations	Performance Optimization, Lazy Loading, Isolates, Profiling, Push Notifications, WebSockets, Socket.IO
Testing & Deployment	Unit Testing, Widget Testing, Play Store & App Store Deployment
Methodologies	Agile / Scrum
Languages (Spoken)	English, Hindi, Marathi

PROFESSIONAL EXPERIENCE

Software Development Engineer – III (Flutter)

Jul 2023 – July 2026

Prometteur Solutions Pvt. Ltd.

Pune, Maharashtra

- Architected and shipped multiple high-impact cross-platform applications including **Seeu Dating App**, **EasyScore**, **Gobet** (live sports betting, France region), **E-MediCare** (healthcare), and **KIMI** (crowdfunding), targeting Android, iOS, and web simultaneously.
- Led full-cycle development of **Smart Ship Hub** (Vessel/Shore Finder), a logistics platform delivering real-time marine tracking across Android, iOS, and web; handled architecture design, API integration, and multi-platform deployment.
- Built **Sherpa**, an interactive educational mobile app enhancing student learning through resource delivery and progress tracking, leveraging Firebase Firestore for real-time data sync.
- Developed and deployed a **crowdfunding platform** on Android, iOS, and web using Flutter's multi-platform capabilities and integrated secure payment flows.
- Implemented robust CI/CD pipelines using **Fastlane** and **GitHub Actions**, reducing manual deployment effort and improving release cycles by automating build, test, and store submission workflows.
- Applied **Bloc** and **Clean Architecture** patterns to maintain separation of concerns across all projects, ensuring high testability and long-term maintainability.
- Optimized app performance using **Isolates**, lazy loading, widget profiling, and efficient Firestore query strategies, achieving smooth 60fps experiences on target devices.

Mobile App Developer

Oct 2021 – Nov 2022

Fermion Infotech Pvt. Ltd.

Mumbai, Maharashtra

- Developed **Adda Games**, a real-money multi-gaming platform enabling competitive gameplay with real-cash rewards; implemented secure wallet, payment gateway integration, and real-time game state updates.
- Built direct messaging, public project channels, and a push notification system using **Firebase Cloud Messaging (FCM)**, ensuring reliable user engagement and communication.
- Designed responsive UI components aligned with product specifications, improving user retention metrics through intuitive gaming interface design.

- Designed and implemented the **chat system architecture** and user interface for a crowdfunding communication module, enabling seamless interaction between project creators and backers.
- Integrated **WebSockets** and **Socket.IO** to deliver real-time bidirectional messaging, enabling instant notifications and live chat within the application.
- Established foundational Flutter development practices for the team including state management conventions and reusable widget libraries, accelerating team productivity.

KEY PROJECTS

- **Seeu Dating App** – Location-based social dating application with real-time chat, profile matching, and media sharing built using Flutter, Firebase, and GetX state management.
- **Smart Ship Hub (Vessel/Shore Finder)** – Multi-platform logistics app for marine vessel tracking and shore coordination; developed across Android, iOS, and Flutter Web with REST API and real-time data feeds.
- **Gobet** – Live sports betting platform (available in France region) with real-time odds updates, wallet management, and secure payment processing.
- **EasyScores (Easy Live Scores)** – Sports score aggregator app delivering real-time match updates using REST APIs and efficient list rendering with Flutter's lazy loading techniques.
- **E-MediCare** – Healthcare app enabling online doctor consultations, appointment booking, and patient health record management; integrated with Firebase Auth and Firestore.
- **Sherpa Tutors** – Educational platform enhancing student-tutor interaction with resource sharing, scheduling, and progress tracking features.
- **KIMI (Crowdfunding App)** – Full-featured crowdfunding platform with project creation, backer communication, real-time updates, and payment integration on Android, iOS, and web.
- **ALS Mobility (E-Vehicle Charging App)** – EV charging station locator and booking app with map integration and real-time station availability tracking.
- **Adda Games** – Real-money multi-gaming platform supporting multiple game modes with secure wallet, in-app payments, and live competitive sessions.
- **SarvaGram** – Rural commerce and services platform; implemented API integrations, complex UI flows, and local language support.
- **FIN App / Tennis App / Recipe App** – Delivered niche-domain applications spanning fintech, sports analytics, and lifestyle, each with domain-specific UI/UX and API integrations.
- **Yaari E-Commerce / A Town E Shop** – Full-stack e-commerce applications with product catalog, cart, checkout, and order tracking features.
- **Internal Corporate Applications** – Developed enterprise-grade internal tools for workflow management, data capture, and reporting with role-based access control.

ACHIEVEMENTS & HIGHLIGHTS

- Delivered **50+ cross-platform Flutter applications** across diverse industry verticals including healthcare, fintech, e-commerce, sports, logistics, and enterprise.
- Successfully published multiple apps on both **Google Play Store** and **Apple App Store**, managing the complete submission, review, and release process independently.
- Extended Flutter expertise beyond mobile to **Flutter Web**, delivering multi-platform solutions from a single shared codebase.
- Implemented **real-time communication systems** using WebSockets and Socket.IO, powering chat systems and live data features across multiple productions apps.
- Consistently applied **Clean Architecture** and MVVM patterns, resulting in highly testable, maintainable codebases across long-running enterprise projects.
- Streamlined deployments with **Fastlane + GitHub Actions** CI/CD integration, reducing release turnaround and eliminating manual errors.

EDUCATION

Master of Computer Application (MCA)

2021

Pune University

Pune, Maharashtra

Bachelor of Computer Application (BCA)

Pune University

Pune, Maharashtra

HSC – Maharashtra State Board, Pune

SSC – Maharashtra State Board, Pune
